

The World of Labeling - A Perfect System

Labels/die-cut parts

Thermal printing systems

Labeling systems

We develop and produce high quality nameplates, self-adhesive and security type labels for technical industries according to IATF 16949 (includes ISO 9001). In addition to durable labels, we also offer tailor-made print and apply systems. This ensures system solutions from one source. Experience and technical know-how have enabled us to label difficult substrates automatically and permanently. Turn our knowledge into your profit!

- Nameplates
- Security labels
- Functional die-cut parts
- Labeling systems
- Thermal printing systems
- Barcode reading systems

Multi-Part
Labels

Efficient Flow

Marking

with multi-part labels

Innovative Labeling

Individual label printing to provide a number of information

Applying the entire label system, incl. partial labels

Simple detachment of partial labels

Adhesion of partial labels

labeled product

Zero defects by transfer of information

Marking

without multi-part labels

Cost-intensive identification

Individual label printing without providing information

Applying a basic label

Additional costs through repetition of printing

The previously generated label is adhered

labeled product

Creating information several times

- **Cost and time savings through one time, central label manufacturing**
- **Providing of unified product information for the following production processes**
- **Flexible design, incl. individual number of partial labels**
- **Label sizes according to customer specifications**
- **Easy detachment of partial labels**

Product

- Easy adhering of the entire label system, incl. partial labels
- Special coating enables an easy and residue-free removal of all partial labels
- Variety of product options are available; the choice of suitable adhesive systems is made according to customer requirements
- Imprintable with current TT- printing systems
- High quality self-adhesive materials offer excellent weather and chemical resistance
- Color prints visualize quick information assignment
