

The World of Labeling - A Perfect System

We develop and produce high quality nameplates, self-adhesive and security type labels for technical industries according to IATF 16949 (includes ISO 9001). In addition to durable labels, we also offer tailor-made print and apply systems. This ensures system solutions from one source. Experience and technical know-how have enabled us to label difficult substrates automatically and permanently. Turn our knowledge into your profit!

- Nameplates
- Security labels
- Functional die-cut parts
- Labeling systems
- Thermal printing systems
- Barcode reading systems

Labels
with a
unique ID

Efficient Flow

Use the advantages

- Cost and time savings through a central label production
- Free choice of label dimensions
- Inclusion of barcodes/2D matrix codes
 - more data in a smaller space
- Enables fast and accurate data collection also over larger distances
- Secure traceability
- On request you will receive quality tested labels including a test report

Product

- Multitude of product variables are available; selection of a suitable adhesive will be based on your requirements
- High grade adhesive materials offer excellent weathering and chemical resistancies
- Suitable also for structured plastic substrates
- Imprinting with all common print systems
- Selected barcode scanners / data recording devices achieve excellent reading accuracy
- Optional
 - protective laminate for highest mechanical resistancies
 - paint mask layer available

Barcode label with color dot

Label with 2D matrix code

Sequentially numbered seals of approval

Make each label a unique individual piece
