

# The World of Labeling - A Perfect System

Labels/die-cut parts

Thermal printing systems

Labeling systems

We develop and produce high quality nameplates, self-adhesive and security type labels for technical industries according to IATF 16949 (includes ISO 9001). In addition to durable labels, we also offer tailor-made print and apply systems. This ensures system solutions from one source. Experience and technical know-how have enabled us to label difficult substrates automatically and permanently. Turn our knowledge into your profit!

- Nameplates
- Security labels
- Functional die-cut parts
- Labeling systems
- Thermal printing systems
- Barcode reading systems

Legally compliant labeling

### Marking

without multi-layer label

#### Conventional identification

Identifying with multiple individual labels

Application of the 1st label

Application of the 2nd label

Depending on information needs you may need a 3rd and 4th label

Unattractive product with a variety of labels attached

Standard identification

# Use the advantages

- One label consisting of two layers
- The top label - the jewelry side; the inner label contains legally required texts and product information
- Easy to open and resealable
- The multi-layer label is permanently connected to your product
- Multi-colored printable version

## Product

- A lot of information with low space requirements
- Fulfills the legal labeling guidelines
- Foldable and resealable
- Special materials offer possibilities to stick the label even on very small areas
- Complete service; individually imprinted with series data or production data is possible
- Automatic application of multi-layer labels on your product is provided by our application systems

### INFOduo Label

### Legally required texts - inside

### Flexible identification

A lot of information on limited space.
